Dear

I am writing in response to your request for the following information regarding annual fitness testing:

It is my understanding that you plan to introduce annual fitness testing of all your Officers at a level higher than that which they were recruited at, and that you expect all Officers regardless of age to achieve the same level.

What are your plans for;-

- 1, Officers than can not achieve the expected level due to their age?**
- 2, Officers that can not achieve the expected level due to ongoing medical conditions such as Arthritis etc?**

received on 25 August 2011. Your request has been handled under Section 1(1) of the Freedom of Information Act 2000. In accordance with Section 1(1)(a) of the Act I hereby confirm that the CNC/CNPA does not hold information of the type specified in your request.

Fitness testing has been introduced for officers joining the Constabulary from the 1st March 2011 and those officers were tested throughout the recruitment process at the appropriate level and now have a contractual obligation to maintain that standard.

A project group is now working on an implementation programme for roll out across existing employees. No decisions have been taken as to the actions required and any processes identified will be required to go through the consultation process with the staff associations before implementation.

We take our responsibilities under the Freedom of Information Act seriously but, if you feel your request has not been properly handled or you are otherwise dissatisfied with the outcome of your request, you have the right to complain. We will investigate the matter and endeavour to reply within 3 – 6 weeks. You should write in the first instance to:
