

CIVIL NUCLEAR CONSTABULARY

The Civil Nuclear Constabulary looks after the Power Station here at Wylfa. You can see us around this area in our vehicles and on foot. We have a special cap badge which is based on the GRIFFIN.

The Griffin was chosen for our badge because:

- it is a heraldic animal, which was painted on the shields of knights and is found on coats of arms
- it represents strength, vigilance, might and justice
- it is known for being watchful, loyal, graceful, swift, monstrous and divine
- the lion's body shows power on Earth
- the eagle's wings show power over the skies
- the Griffin is also the guardian of treasure, precious things and of kings. We have our Griffin standing on its back legs so it is ready to meet its enemies.
