

POLICY	Issue: 2.0
Memoranda of Understanding	Date: 10/02/2011

Policy Statement

The Civil Nuclear Constabulary (CNC) has agreed a Co-ordinated Policing Protocol with all Home Office / Scottish Police Forces (HO/SPFs). That Protocol provides for an efficient and effective working relationship nationally, and is the basis for Memoranda of Understanding (MOUs) to be agreed, between the CNC and HO/SPFs local to the sites protected by the CNC.

Each MOU will, as far as reasonably practicable:-

- outline areas of responsibility and accountability and how the parties will usually police the places at which the CNC has jurisdiction; and
- make provision for consultation and co-operation between the parties, with the aim of delivering the best policing on the ground.

The CNC's Operations Support Department will maintain a corporate overview in relation to the preparation and distribution of the MOUs on behalf of the CNC.

The MOUs may be supported by CNC Contingency Plans which are specific to the Operational Policing Units.

For pre-planned operations involving joint CNC and HO/SPF deployment of officers, the agreed details and parameters of command will be documented in a joint Operation Order specific to that event.

Aims of the Policy

To ensure that there are formally agreed MOUs between the CNC and the HO/SPFs for the places at which the CNC has jurisdiction, which will, as far as reasonably practicable:-

- outline areas of responsibility and accountability and how the parties will usually police those places;
- make provision for consultation and co-operation between the parties, with the aim of delivering the best policing on the ground.

This policy is enacted by the following management system documents:
